

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

June 16-30, 2006

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **June 16-30, 2006**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2005**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

SUMMARY OF CEQA DOCUMENT SUBMITTALS BY YEAR AND BY TYPE

Year	NOP	ND/MND	EIR	NOD	NOE	EIS	EA	Other	Total Documents

<u>Documents Received on Friday, June 16, 2006</u>			
2005121167	Antonio Brasil Dairy Merced County --Merced Construction and operation of a milk cow dairy to house 1,200 milk cows and 1,150 support stock.	CON	07/17/2006
2006062076	Tentative Map Application No. 2006-05 - Pearl Oak Subdivision Stanislaus County Oakdale--Stanislaus Request to create 9 residential lots from three existing lots, ranging in size from 20,400 square feet to 1.22 ares. Project to be served by public water (Oakdale Irrigation District) and private septic system.	CON	07/05/2006
2006042115	Waterfowl, Coot, Moorhen, and Common Snipe Hunting Fish & Game Commission -- Waterfowl, Coot, Moorhen, and Common Snipe Hunting.	EIR	07/31/2006
2003032020	Tentative Map TR-7305 Alameda County --Alameda Demolition of existing structures (except main house), clearing, grading, and development of sixteen lots for single-family residences plus retention of existing house on 17th lot. A new cul-de-sac street would provide access to most lots from Seven Hills Road. Lots would also face the existing Malabar Avenue.	FIN	
2003102144	Orchard Estates / Lake Road Grizzly Ranch EIR Parcel Map 2003-45 Stanislaus County --Stanislaus The project would subdivide 10 existing parcels on an existing 2,843-acre almond orchard site on the south side of Lake Road, east of Meikle Road in the Hickman area into 71 forty-acre parcels, dedicated for the cultivation and growth of almond orchards as a primary use, with a secondary use to allow potential future compatible residential development. Property owners would have the future option to convert up to 1.5 acres of each forty acre parcel into a residential building development envelope. According to the Stanislaus County zoning regulations, (A-2-40 / General Agriculture) each forty-acre parcel would be allowed a maximum of two homes within each residential development envelope. The proposed project's primary use would continue to be the cultivation of almonds upon build-out and approximately 106.5 acres of the property would be used for residential development. The proposed project would also include the construction of private streets and utilities.	FIN	
2004031011	University City North/South Transportation Corridor Study San Diego, City of San Diego--San Diego This EIR analyzes three basic transportation projects within University City, together with a combination of these projects, and/or others, for a total of seven project "alternatives." The three basic projects include: (1) Genesee Avenue Widening, (2) Regents Road Bridge, (3) Genesee Avenue / Governor Drive Grade Separation.	FIN

2006052162	<p>Westfield Valley Fair Site Development Permit File No. H06-027 San Jose, City of San Jose--Santa Clara</p> <p>The proposed project consists of an approximately 650,000 gross square foot expansion of the existing Westfield Valley Fair Shopping Center to accommodate up to two new anchor stores and additional retail space. The project also includes the demolition and reconstruction of two existing parking structures. These two new five-level parking structures would be up to approximately 930,000 total square feet in size. One structure would be reconstructed and expanded in its existing location in the northeastern portion of the site (New Parking Structure "E"), while the other structure would be relocated to the south of its existing located (New Parking Structure "F"). These two new five-level parking structures would include roof-top parking and would provide approximately 2,500 additional parking spaces, bringing the total number of on-site parking spaces to approximately 9,600 spaces. Three existing commercial buildings would be demolished and relocated as part of the project. Including two bank buildings located along the southern boundary of the site and the grocery/drug store buildings located near the southwestern corner of the site. The bank buildings are currently located within the City of San Jose and would be relocated to the southwestern portion of the site in the City of Santa Clara. The grocery/drug store buildings would be relocated to the north of the existing building, and would remain within the City of Santa Clara. The project also includes access and circulation improvements, including the relocation of a southern driveway along Steven's Creek Boulevard so that it would align with South Baywood Avenue. This realignment would require the relocation of the traffic signal on Steven's Creek Boulevard. Other access and roadway improvements are also proposed along the western boundary of the site along Winchester Boulevard and could include the relocation of the existing traffic signal at Dorcich Street.</p>	NOP	07/17/2006
2006061073	<p>The Palm Canyon Palm Springs, City of Palm Springs--Riverside</p> <p>Project size is approximately 2.67 acres. Planned Development District to be processed in a Redevelopment Area. Project is mixed use and contains 125 residential units and 40,035 s.f. of commercial. General Plan amendment is proposed to process special street sections for Ramon Road and Indian Canyon Drive to maintain existing street improvements.</p>	NOP	07/17/2006
2006061078	<p>Site C Mixed Use Project San Gabriel, City of San Gabriel--Los Angeles</p> <p>The site is currently developed with a mix of commercial uses totaling approximately 37,000 square feet and one single-family dwelling unit. The project proposes to remove the on-site uses and construct a mixed-use development with approximately 18,000 square feet of commercial space and 159 dwelling units. The proposed project would be a four story mixed-use development, with three floors of residential uses above one floor of street level retail and restaurant uses.</p>	NOP	07/17/2006

	approximately 10-foot-wide multi-modal, non-motorized decomposed granite trail extending from the southwest corner of the intersection of Foothill Boulevard and Indiana Avenue to the northern edge of the Foothill Freeway (210) right of way, where it will connect with an existing trail overcrossing over the Foothill Freeway. This trail segment is approximately 500 feet long. The approximately 10-foot-wide trail will then continue from the southern edge of the Foothill Freeway right of way at a point of connection with the existing freeway overcrossing, which connection is approximately 200 feet west of Indiana Avenue. The trail will continue south and cross Verdugo Boulevard at a point approximately 200 feet west of Indiana west of Indiana Avenue. The trail will continue south and cross Verdugo Boulevard to Descanso Drive, intersecting Descanso Drive approximately 350 feet west of Fairlawn Drive. On the property between Verdugo Boulevard and Descanso Drive, a small bridge will be built to cross Winery Channel, a small flood control channel. The project will include the street crossing at Verdugo Road including crossing lights and painted crossing indicators. This portion of the trail will be just over 1,000 feet in length.		
2006061080	John W. North Surface Water Treatment Plant Riverside, City of Colton, Grand Terrace--San Bernardino Construction of new water treatment facility. Demolition of existing gas chlorine system and replace with sodium bychlorite system.	Neg	07/17/2006
2006061081	Fraser/Siemens Lot Split Plat Modification and Lot Line Adjustment Santa Barbara County --Santa Barbara The Lot Split Plat Modification (05RMM-0000-00003) would remove a notation from Lot Split Plat No. 1467 that designates the parcel (APN 007-050-015) as not a building site and would establish the existing 0.77 acre lot as a buildable parcel. A 0.23-acre development envelope would be established. An existing trail easement would be relocated and dedicated in a new location across the property and a new trail constructed to maintain trail uses along this segment of the San Ysidro Trail. The Lot Line Adjustment would transfer land from APN 007-050-025 to APN 007-050-015 to provide direct access from Park Lane West rather than relying upon an existing recorded easement.	Neg	07/17/2006
2006062077	Lucerne Amphitheater Lake County Community Development Department --Lake Redevelopment of a 0.5 acre lakefront parcel to replace existing structures with a public park, amphitheater, pier, and parking lot.	Neg	07/17/2006

2006052024	Secret Town Pipeline Placer County Water Agency --Placer PCWA is proposing to replace the approximately 2,500-foot-long Secret Town Pipeline, a piped section of the Boardman Canal. The proposed maintenance project entails replacing this existing 30-inch-diameter raw water pipeline that has been leaking and has had several failures in recent years. The pipeline would be replaced in two phases. Phase 1 involves replacing a 700-foot-long section of pipeline and 500 feet of downstream canal with 1,600 feet of new pipeline. These improvements will predominantly be within the unpaved Secret Town Road lying westerly of the Union Pacific Railroad tracks. Phase 2 of the project will replace the remaining upstream portion of the pipeline to the pipeline headworks east of I-80.	NOD	
2006052047	Melo Residence Santa Clara County Gilroy--Santa Clara The application is for a grading permit to construct a new residence on a 3.00 acre parcel of land in San Martin. The project proposes 500 cubic yards of cut and 950 cubic yards of fill to occur on the property for driveway and building site and to reroute an existing swale on the site. The grading consists of creating a large fill pad for the residence, fill for the driveway and cut for the swale which runs generally north-south to the east of the proposed house.	NOD

2006068119	Consolidated Grant Program - Trinity County Drinking Water Source Sediment Reduction Project Trinity County Planning Department --Trinity Modification of road drainage patterns and treatment of County road sites that are actual, or potential, sources of erosion that have been inventoried using the Five Counties Direct Inventory of Roads and Treatments and determined to have a potential to yield ~ 74,490 yd3 of sediment to municipal/domestic water systems and anadromous streams in the Trinity River watershed including Little Browns Creek (tributary to Weaver Creek), Rush Creek, Hoadley Gulch, Grass Valley Creek, and the Trinity River. The Trinity River and these tributaries have been analyzed during the Trinity County, which serve over 4,000 people. Erosion sources were targeted and prioritized based on their likelihood to deliver sediment, total potential delivery volume, and cost effectiveness of treatments. This project will help to achieve sediment TMDL targets and objectives of the Trinity River Restoration Program, improve drinking water quality, and enhance anadromous fish habitat quality.	NOE

2006068120	<p>Lower Scott Roads Maintenance and Stormproofing Project U.S. Forest Service Fort Jones--Siskiyou</p> <p>The Lower Scott Roads Maintenance and Stormproofing Project would accomplish maintenance of road ditches, culverts and the roadbeds to improve drainage and control erosion. It would outslope short segments and construct rolling dips, allowing decommissioning of several cross-drains. At stream crossings, the project would replace culverts having limited capacity with those designed to pass larger flood waters and debris, reduce fill volumes and armor fillslopes, thereby preventing fill failures that can result in erosion. The purpose of this work is to protect water quality, reduce sediment pollution in Canyon, Kelsey and Tompkins Creeks and in the Scott River, which is a sediment-impaired waterbody. These streams support coho salmon and other anadromous fish species.</p>	NOE

<u>Documents Received on Monday, June 19, 2006</u>			
2004061159	Renewable Water Resource Management Plan for the Southern Reaches of the Calleguas Creek Watershed Camrosa County Water District --Ventura The project is an integrated set of facilities to reduce reliance on imported water while improving water quality through the managed transport of salts out of the watershed. The project includes water reclamation, salts management and adaptive management. Key elements include: beneficial reuse of tertiary treated wastewater, reclamation of high tds groundwater, introduction of replenishment water to surface watercourse to improve groundwater recharge, disposal of brines and high tds wastewaters.	EIR	08/02/2006
2005031014	Mixed Use Solana Beach Train Station Solana Beach, City of Solana Beach--San Diego The proposed project is composed of three separate development projects: (1) construction of the North County Transit District (NCTD) parking facility to provide parking for the Solana Beach Train Station and the region; (2) construction of an integrated, mixed-use, transit-oriented development involving office, restaurant-retail, residential uses, and a performing arts center for the North Coast Repertory Theatre; and (3) a beach replenishment program using excavated fill material to protect the City's shoreline.	EIR	08/02/2006
2005092130	Jones Ranch Commercial Shopping Center Project Concord, City of Concord--Contra Costa The proposed project includes the redevelopment of an approximately 28 +/- acre site with an approximately 364,300 square-foot commercial shopping center, including two, big-box retail buildings (i.e., Wal-mart and Lowe's Home Improvement), 1,368 parking spaces, site landscaping, and on-and off-site improvements. Five driveways distributed along the approximate 1,100 foot Arnold Industrial Way site frontage would provide ingress and egress access to the site. The eight existing parcels on the project site would be reconfigured into five new parcels, three of which will be small tenant pads for future retail and restaurant uses.	EIR	08/02/2006
2005111057	BP Carson Refinery Safety, Compliance and Optimization Project South Coast Air Quality Management District --Los Angeles BP West Coast Products LLC (BP) is proposing modifications to multiple Refinery process units at the Carson Refinery to: (1) attain compliance with SCAQMD Rules 1105.1, 1118, and 1173, and a settlement agreement between the SCAQMD and BP; (2) improve the safety at the Coker Gas Debutanizer, Fluid Catalytic Cracking Unit (FCCU), Fluid Feed Hydrodesulfurization Unit (FFHDS), vapor recovery systems and flare systems; and (3) improve operational efficiency of the FCCU, FFHDS, Alky Merox Unit, Alkylation Unit, Hydrocracker Unit, and Sulfur Plant. The Initial Study identified "air quality," "hazards and hazardous materials," "noise," and "transportation/traffic" as the areas that may be adversely affected by the proposed project. Impacts to these environmental areas were further analyzed in the Draft EIR. Based on the construction activities necessary to comply with the proposed project, the quantity of emissions due to construction may exceed the SCAQMD's daily significance threshold. The proposed project was also concluded to have potentially significant adverse hazards impacts. Noise and transportation/traffic impacts were concluded to be less than significant.	EIR	08/02/2006

	Road and Long Canyon Road. Additionally, a sewer line extension is proposed to serve the project site.		
2006061084	21st Street Sewer Pump Station Replacement Project Del Mar, City of Del Mar--San Diego The project is the replacement of an existing sewer pump station that was built in 1972 with a new facility on the same property but 50' further north, to allow for construction while the current facility remains in operation. A new accessible restroom facility will also be constructed and the current 1/2 court basketball court will be relocated. The two tennis courts will remain.	MND	07/18/2006
2006061087	Gamble Lift Station, Sewer Line and Bobbitt Avenue Sewer Lines Western Municipal Water District Riverside--Riverside The Lift Station is expected to consist of a concrete block one-story structure above grade with part of the lift station to be as much as 30 feet below grade. The structure will be approximately 502.7 square feet (26' x 19' 4"). The structure will incase a wet well, two 50-horsepower submersible pumps, a motor control center, a small electrical panel, auto controls, a stand-by generator, a 1,000 kilowatt SCE transformer and a motor on top of the pump. Approximately 1,560 linear feet of force main, and 2,730 linear feet of sewer line that will enter and leave the lift station at various depths will be constructed within existing right-of-way.	MND	07/18/2006
2006061088	Haines Canyon Channel Outlet Maintenance Los Angeles County Department of Public Works Los Angeles, City of--Los Angeles Substantial sediment accumulation has occurred at this outlet from a combination of heavy storm events in recent years and the presence of vegetation that impedes the downstream flow of stormwater. This has subsequently caused ponding of water at the outlet mouth and rerouting of seasonal water flows outside the CLADPW right-of-way (ROW). The Haines Canyon Channel Outlet Maintenance project proposes to: reconfigure the primary drainage within the CLADPW ROW by removing accumulated sediment, and possibly trees, that are currently impeding the preferred flow of water; regrade the soft-bottom channel; and fill in the ponded area. The purpose of the project is to alleviate the standing water and restore the functionality of the flood control channel. The proposed project would also ameliorate the public safety hazard related to the potential for stagnant water to be a breeding site for mosquitos, which can carry West Nile Virus.	MND	07/18/2006
2006061093	Toland Road Landfill Biosolids Facility and Electrical Generation Project Ventura Regional Sanitation District Santa Paula, Fillmore--Ventura The proposed project includes the construction and operation of landfill gas electrical generators and a biosolids drying facility. The site is comprised of approximately 2.44 acres and is located entirely within the existing boundaries of the Conditional Use Permit for Toland Road Landfill. The biosolids drying facility will import biosolids from local wastewater treatment plants and will use landfill gas to power electrical generators and biosolids dryers to process the biosolids to a level specified by the end-use of the biosolids. Potential beneficial uses to the direct biosolids includes alternative cover at Toland Road Landfill and commercial use.	MND	07/18/2006

2006062091	Eldridge Minor Subdivision Humboldt County Community Development Services --Humboldt The Minor Subdivision of a +/- 10.4 acre parcel into two parcels of +/- 5.3 (Parcel 2) and +/- 5.1 (Parcel 1) acres each. Proposed Parcel 1 is developed with a residence, detached shop and a smaller cabin and shop. These residences are served by on-site sewage disposal and well. Future development on Parcel 2 will also utilize on-site water and sewage disposal. The parcel's average slopes are +/- 40%. A soils report will be required to determine a feasible building site on proposed Parcel 2. Parcel 2 will be accessed off the Avenue of the Giants via a 40' easement through Parcel 1 which currently has access of the Avenue.	Neg	07/18/2006
2003111051	Agoura Village Strategic Plan - Architectural and Urban Design Development Criteria and Supporting Amendments to the City's Zoning Ordinance Agoura Hills, City of Agoura Hills--Los Angeles Adoption of Agoura Village Specific Plan to guide future development in a portion of the City, with new development possibly totaling up to a maximum of 576,458 sf and 293 multi-family dwellings; certification of Final Program EIR, along with approval of State of Overriding Considerations and approval of MMRP; approval of a General Plan Amendment, Zoning Ordinance Amendment, Zone Change, and Ladyface Mountain.	NOD	
2004041081	Precise Development Plan and Desalination Plant Project (EIR 03-05) Carlsbad, City of Carlsbad, Oceanside, San Marcos, Vista--San Diego The project is a proposal to (1) construct and operate a 50 million gallon per day seawater desalination plant and other appurtenant and ancillary water and support facilities to produce potable water, including an offsite water delivery pipeline system; and (2) establish a Precise Development Plan (PDP) for the Encina Power Station (EPS). The desalination plant would be located at the Encina Power Station in Carlsbad. The offsite pipeline system would extend into the cities of Carlsbad, Oceanside, and Vista. The PDP would serve as the primary City of Carlsbad land use application for the desalination plant and as a document to establish existing land uses at and development land use standards for the EPS. The project does not proposed to modify EPS operations or existing facilities, other than discharge channel and electrical connections.	NOD

2006041131	SoCal Senior Project Escondido, City of Escondido--San Diego An Amendment to the Downtown Specific Plan modifying the land use district from General Commercial to Urban Neighborhood in conjunction with a Planned Development that involves a Preliminary, Master and Precise Development Plan application for a four-story, 61-unit affordable senior housing complex with a density of 53.5 du/acre on a 1.14 acre site. Request also includes a Relocation Plan and Conversion Impact Report for the redevelopment of Mobile Haven Trailer Park.	NOD	
2006042158	Rule 4570 Confined Animal Facilities San Joaquin Valley Air Pollution Control District -- The San Joaquin Valley Air Basin (SJVAB) is classified as an extreme ozone nonattainment area and a serious PM10 nonattainment area for the health-based air quality standards established by the federal Clean Air Act. The SJVAB is also classified as severe nonattainment for the California ozone standard and nonattainment for the California PM10 standard. This rulemaking project is part of the District's ozone attainment strategy. This project will seek to obtain as much emission reduction from the source category as is expeditiously practicable, technologically feasible, and economically reasonable, as determined by the District's Governing Board. The rulemaking project is also intended to satisfy the state and federal requirements identified above. The purpose of the rule is to reduce emissions of volatile organic compounds (VOC) from confined animal facilities (CAF's) within the SJVAB. The Draft Rule would affect large existing facilities and new large confined animal facilities exceeding the California Air Resources Board definition of a large CAF. This Draft Rule incorporates a flexible approach where operators would select measures that would reduce the affected facilities baseline uncontrolled VOC emissions by over 24% annually, depending on the type of animal housed at the facility. District staff estimates this reduction in baseline emissions would equate to annual VOC emission reductions of over 6,500 tons, for a daily reduction of over 18 tons per day.	NOD

2006068132	<p>right-of-way or existing prescriptive use area.</p> <p>Emergency Granite and Terra Cotta Repair, 350 McAllister Street, San Francisco, CA General Services, Department of San Francisco--San Francisco Immediate emergency repairs are required at 350 McAllister Street (Earl Warren State Building) to ensure structural stabilization of the exterior façade.</p> <p>The historic Earl Warren State Building is an existing six-story building with a full basement. The original portion of this building, was constructed in 1922 and the east and west wings were added at the rear (north) of the building in 1931. The building totals approximately 200,000 gross square feet and houses the State Supreme Court Room, along with office and support facilities for the Supreme and Appellate Courts, Governor, Legislators and Attorney General. The Earl Warren State Building is within and contributes to the National Historic Landmark San Francisco Civic Center Historic District. In September 2005, one or more pieces of loose granite from the fourth floor balustrade fell to the ground, narrowly missing a pedestrian by one or two feet. The entrance to the building was immediately cordoned off as a public safety precaution. A pedestrian protection enclosure was installed at the main south entrance of the building to protect the building occupants and the general public for further potential falling granite while entering the building.</p> <p>The California Department of General Services, Real Estate Services Division (DGS/RESO) contracted for an immediate study to observe all sections of the balustrade and determine the existing condition of the building. The study determined that the building has severe deterioration of mortar joints, granite spalling and severely cracked terra cotta ornamentation at the roof cornice, as well as the deterioration of the granite balusters and is a potentially life-threatening risk to the general public and occupants of the building.</p> <p>The study recommended several key actions to ensure the emergency stabilization/retrofit of the Earl Warren State Building as well as the abatement of health risk posed by mold. By administrative mandate and State law, all recommended stabilization/retrofit procedures must be reviewed by the Office of Historic Preservation regarding the proposed project's compliance with the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings.</p>	NOE	
2006068133	<p>Transfer of Coverage to Placer County APN 92-120-11 (Frautschi) Tahoe Conservancy Unincorporated--Placer Project consists of the sale and transfer of 81 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.</p>	NOE

2006061100	General Plan Amendment 04-08 Zone Change 04-09 Tentative Tract Map 062332; Tentative Tract Map 062604 Lancaster, City of Lancaster--Los Angeles The proposed project consists of the development of an active adult community with approximately 1,200 residential units on 170 acres. This community would be gated with private streets. In addition to the residential units, the community would contain recreational amenities including picnic areas, park, walking/bicycle trails, multi-purpose room for community events/social programs, business center, tennis courts, fitness center, and outdoor swimming pool/spa. In order to accommodate this development, a general plan amendment and zone change would be required to change the general plan designation from Non-Urban Residential to Urban Residential and to change the zoning from RR-2.5 to MDR (moderate density residential).	NOP	07/19/2006
2006061101	General Plan Amendment 04-05, Zone Change 04-06, Tentative Tract Map 062757 Lancaster, City of Lancaster--Los Angeles The proposed project consists of the subdivision of a total of approximately 160 acres into a total of 650 residential lots. The proposed project would be constructed in four phases of approximately 150 residential units each. Access to the project site would be provided from Avenue J, Avenue J-8, 65th Street West and 70th Street West.	NOP	07/19/2006
2006061102	South Portion of Phase 4 of the California Commerce Center Ontario, City of Ontario--San Bernardino The project involves the construction of approximately 1,941,267 square feet of industrial buildings on 98.7+ acres in the south portion of Phase 4 of the California Commerce Center. The project is within the City of Ontario, California Commerce Center Specific Plan, and zoning is SP (specific plan required). Allowable land use is light industrial and rail industrial. The 19.8+ acres fronting Milliken Avenue are light industrial, and the 78.9+ acres fronting Francis Street are rail industrial. The maximum allowable floor area ratio is 0.45 and up to 0.55 if the site plan is taken to the City of Ontario Planning Commission for approval.	NOP

2004012028	<p>Napa Gateway Plaza: P05-0190-TM (Tentative Map) and P05-0191-UP (Use Permit) Napa County --Napa</p> <p>Request for approval of tentative map application to create seven parcels from the existing four parcels, creating three additional lots and a use permit application for 174,984 square feet of retail, office, and restaurant use in a series of five buildings (buildings C through H), 100-room hotel (building K), and 332 surface parking spaces. The proposed project buildings would range from one to two stories tall, with the hotel being one to three stories tall. Approximately 3.7 acres of the project site would be permanent landscaping and open lawn area.</p>	FIN	
2004071142	<p>Amendment 2006 to the Stanton Consolidated Redevelopment Project Stanton Redevelopment Agency Stanton--Orange</p> <p>The proposed project entails the amendment of the Stanton Consolidated Redevelopment Plan which was adopted in 2004. The purpose of the amendment is to eliminate the conditions of remaining physical and economic blight in the Consolidated Project Area. The amendment proposes to: increase the tax increment limit to the Stanton Redevelopment Agency for the Stanton Community Development Project Area, a portion of the Consolidated Project Area; eliminate the annual maximum amount of tax increment collected by the Agency; and include additional capital improvement projects into the Consolidated Redevelopment Plan such as developing two new parks, implementing street beautification projects and replacing storm drain channels. Details of the proposed amendment are included in the Initial Study.</p>	NOP	07/20/2006
2006061105	<p>SD EIR 07-06; PdV Wind Energy Project Kern County Planning Department --Kern</p> <p>A change in zone classification to incorporate the Wind Energy (WE) combining district on approximately 3.854 acres of a 6,435-acre project site and approval of a conditional use permit (CUP) to allow temporary concrete batch plants to facilitate construction. Intent is to develop a 300 Megawatt (MW) wind energy plant consisting of a maximum of 300 wind turbines not to exceed 400 feet in height ranging in capacity from 1 MW to 2.8 MW each. Implementation of the request would also entail construction of a project substation, an interconnection yard/switchin station, on and off-site access roads, control cables, subsurface feeder line corridors and transmission lines necessary to serve the project. The temporary batch plants would only be onsite during construction and would be used to provide concrete material for turbine, substation, operation and maintenance building foundations.</p>	NOP	07/20/2006
2006061106	<p>CAT 17 Commercial Development Project Madera, City of Madera--Madera</p> <p>The proposed project will require approval from the Madera County Local Agency Formation Commission to annex the property into the City of Madera, and a rezoning request. The annexation would result in a revision to the city limit line, which would add one parcel totaling approximately 49 acres to the city.</p> <p>Implementation of the proposed project will require a rezoning request to establish the site's zoning as "C-2" Heavy Commercial. The City of Madera will process the rezoning request in order to achieve consistency with the land use and zoning designations.</p>	NOP	07/20/2006

2006061111	SP00349 - Vineyards at Oasis Specific Plan Riverside County Planning Department Coachella--Riverside Specific Plan No. 349 proposed the development of 1,363 residential dwelling units on 343.63 acres with an overall residential density of 4.0 dwelling units per acre, a school site, a 17.16-acre retail commercial center, and parks, greenbelts, and drainage. General Plan Amendment No. 814 and Change of Zone No. 7363 will implement the land uses identified in the Specific Plan.	NOP	07/21/2006
2006061112	GPA00799, SP00355, CZ007319/La Quinta 628 Riverside County Planning Department --Riverside The project provides for the development of a master-planned community. The community consists of 2,525 residential dwelling units, a community recreation site, an elementary school site, a public park, community parks, landscaped paseos, open space, public infrastructure, and recreational amenities on 622.1 acres. Residential land uses are planned for 417.8 acres, traditional single family housing with lot sizes ranging from approximately 4,000 to 7,200 square feet, 1/2-acre Triplex units located along Harrison Street and Tyler Street, and garden court homes. Residential designations consist of Medium, Medium High and High Density Residential.	NOP	07/21/2006
2006061114	Byrd High School Reconfiguration Los Angeles Unified School District --Los Angeles The proposed project includes the reconfiguration and modernization of the existing middle school campus for high school uses and operation of the campus with the proposed Valley Region Byrd High School program. The proposed project would provide 1,620 two-semester seats for grades nine through twelve. School hours would generally be from 8:00 am to 3:00 pm, with staff and students arriving on campus between 7:00 am and 8:00 am and leaving between 3:00 pm and 5:00 pm. The proposed project involves the reconfiguration of the existing campus, including classrooms, a library/media center, and administration offices. Classroom reconfiguration would include external alterations, e.g., building painting. Internal reconfiguration would include reorganization of the existing buildings. As part of the proposed project, two agricultural buildings would be demolished on the parcel south of Allegheny Avenue. The project may also entail development of a new 13,000 square foot gymnasium with locker rooms near Sheldon Street. Athletic facilities would include softball, football, soccer fields, and hardcourts for basketball, volleyball and tennis. Field lighting and approximately 1,000-seat bleachers would be provided at the football and soccer fields.	NOP	07/21/2006
2006061115	Rivervale Specific Plan (No. 354) Environmental Impact Report Riverside County Planning Department --Riverside The project includes approximately 118 acres of residential development that total approximately 1,200 dwelling units. The project includes a mix of attached and detached single family units with a pedestrian-friendly layout tying together paseos, parks and project dwellings. The project includes connection points not only for project residents, but also surrounding residents to have access to the future civic center area and nearby commercial centers. The proposed Project also includes approximately 12 acres of neighborhood parks (including a community recreation center), as well as sets aside approximately 17 acres for a future civic center and regional park facility. 2006062113	<p>North County Recycling Center and Sanitary Landfill Permit Revision San Joaquin County Lodi--San Joaquin</p> <p>The overall objectives of the proposed project are to allow the County to continue providing the solid waste disposal services begun with the construction of Harney Lane Landfill, which was closed to the public in 1991, and to control the cost of those services whenever possible.</p> <p>The needed solid waste disposal services can be accomplished by increasing the heavy equipment operating hours and allowing more refuse to be disposed each day. Disposal costs can be controlled by increasing the permitted landfill height, which will more fully utilize the permitted landfill area and more efficiently capitalize the investment in future landfill liner construction. Increasing the landfill height would increase the available disposal capacity of the landfill by approximately 70% with little additional cost and without increasing the surface area over which refuse is placed. The additional capacity would also extend the operational life of the existing landfill from 2032 to approximately 2048, but cost savings would begin almost immediately.</p>	NOP	07/21/2006

	County Water Agency, East Bay Municipal Utility District and the City of Sacramento, is developing the FRWP. The FRWA will be diverting Sacramento River water under agreement with Reclamation. The intake facility at the POD will involve a pumping plant that will have eight separate pumps diverting water from a well located behind a fish screen that is approximately 180 feet long. Each pump will connect to a pipeline that goes through a levee before being consolidated into a single pipeline for distribution.

2006068150	Consolidation of Rural Water System (RWS) No. 2 with RWS No. 1 Health Services, Department of Oakdale--Stanislaus This project is the consolidation of two water systems that are connected by a valve piping arrangement to the existing drinking water treatment facility to improve water quality, and conserve energy, chemicals and water. These enhancements will result in a more reliable water source and will improve pressure between the two systems.	NOE	
2006068151	Montana Dry-Wet Weather Runoff Diversion and BMP Project State Water Resources Control Board Santa Monica--Los Angeles The project consists of a storm drain diversion that will pass up to 64 cubic feet per second (cfs) of urban runoff through a primary vortex filter unit to remove trash, debris, and sediment, and then pump up to 1 cfs of the runoff flow during dry weather months and in between rain events into an adjacent sewer line for treatment at the City of Los Angeles' Hyperion Treatment Facility. The primary filtering system will operate during wet weather flows; however, flows will bypass the sewer line diversion and flow to the beach.	NOE	
2006068152	Balwin Hills to Ballona Creek Treatment Train Project State Water Resources Control Board Los Angeles, City of--Los Angeles The project will divert off-site surface runoff from a portion of the Ballona Creek Watershed, via a stormwater lift station, to a pretreatment facility for screening of trash and sediment removal. The pretreated runoff will be stored in underground detention tanks. Pretreated water will then be transferred to a biofiltration/infiltration system for additional treatment. Vegetation for the bioretention/infiltration system will be site-appropriate native plants designed to survive stresses such as frequent periods of inundation during runoff events and drying during inter-event periods. Treated water will be collected through an underground capture system and returned to the detention tanks. Treated runoff can then be beneficially reused through the irrigation of the adjacent Westside Park or returned to Ballona Creek via a tributary stormdrain.	NOE	
2006068153	Levee Stabilization along Butte Creek, Chico, CA Fish & Game #2 Chico--Butte Bank stabilization along Butte creek to protect bank, property and facilities that were threatened by erosion because of the high water flows during the winter of 2005-2006.	NOE	
2006068154	Cosumnes River Preserve Comprehensive Management Plan Fish & Game #2 Unincorporated--Sacramento, San Joaquin Project proposes to develop a planning document only that will serve as the comprehensive management plan for the CRP and will guide CRP management and maintenance, and develop a geographical information system database, develop teaching curriculum, teacher and volunteer docent training, and develop monitoring protocols for natural resources. The area is composed of riparian habitat that includes gravel bars, sloughs, and backwater areas, riparian forests and various communities of shrub and grass land vegetation. All of the project area is frequently flooded. Surrounding land uses are agriculture and highway.	NOE

2006068155	<p>Geyserville Temporary Bridge Installation Fish & Game #3 --Sonoma</p> <p>The proposed project involves installation of a temporary Bailey bridge to facilitate emergency equipment access at the Geyserville Bridge site in Sonoma County at Route 128. The previous bridge crossed the Russian River east of Geyserville on a 1932 steel pony truss bridge, 973.5' long, and was the only crossing of the river between Lytton Station Road/Alexander Valley Road, in Healdsburg, and Crocker Road, in Cloverdale. Pier 6 was damaged by floodwaters during the New Years Eve/Day storm of 2005/2006 causing the bridge closure. Currently, Caltrans is constructing a new bridge crossing at the site; however, all vehicular access has been prohibited. The County of Sonoma is concerned about the lack of access across the River for emergency vehicle use in case of fire or medical emergency. The alternative route can take an additional 20 minutes of travel. The Department of Fish and Game is issuing a Streambed Alteration Agreement Number 1600-2006-0343-3 is pursuant to Fish and Game Code Section 1602.</p>	NOE	
2006068156	<p>Pratt & Whitney Trench 24 Sheet Pile Wall Removal and Bank Repair Fish & Game #3 San Jose--Santa Clara</p> <p>The proposed project is to remove an existing damaged sheet pile wall that has shielded and supported a near vertical creek bank containing an active groundwater recovery and treatment trench. The existing sheet pile wall is now diverting streamflow against the bank, causing accelerated erosion. The sheet pile will be removed from the channel, the eroded slopes on both sides cut back and the voids filled with rip-rap. This is a temporary repair to be followed by a more permanent project once the entire channel length can be evaluated.</p>	NOE	
2006068157	<p>Water Quality Certification for Valley Memorial Park Swale Restoration, City of Novato, Marin County, CA Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Novato--Marin</p> <p>The purpose of the project is to restore hydraulic function of a drainage swale at Valley Memorial Park to reduce flooding, control erosion and downstream siltation, and to enhance habitat. Valley Memorial Park, a cemetery, is adjacent to Rush Creek Open Space Preserve along its northern boundary and private residences and a service road/public walking trail along its western boundary. The swale enters the property at the southwest corner of the cemetery and flows along the western boundary. The swale will be recontoured to a geomorphically stable channel design. Invasive trees will be removed and the channel bed and banks will be revegetated with native wetland and riparian species. The swale restoration project is being undertaken to address a 2004 Water Board Notice of Violation for unpermitted dredge and fill activities.</p>	NOE	
2006068158	<p>Developer Fee Increase: District Wide Lakeside Union School District --San Diego</p> <p>The increase of existing per square foot developer fee by \$0.24 for residential development and \$0.04 for commercial/industrial development. Storage remains the same.</p>	NOE

The new structure would be constructed in two phases: Phase I consists of a 27,000 square-foot structure for laboratory and clinical uses; Phase II consists of two-story 33,000 square for clinical uses that would connect to Phase I. Parking would be provided onsite.	Neg	07/24/2006
2006062121	Old Placerville Road Residential and Office Rancho Cordova, City of Rancho Cordova--Sacramento The project includes a rezone for approximately two-thirds of the site from MP (Industrial Office Park) to RD-10 (Residential), a tentative map to create 35 residential lots and 4 office parcels, a design review for the single-family residential units, a special development permit, and a development agreement. The project site is 5.33 acres in size. Thirty-five single-family residential units are proposed, accessed by one internal road. Each unit will have individual garage and driveway parking. There will be four visitor parking spaces provided. On-street parking will not be allowed within the project. The four office buildings proposed are all one story in height, range from 4,100 sq. ft. to 5,200 sq. ft., and include a total of 86 parking spaces.	Neg	07/24/2006
2006062122	Tentative Parcel Map 2005-0052 Yuba County --Yuba The project proposes to subdivide approximately 85.11 +/- acres into 3 lots (Parcel 1: 5.0 +/- acres, Parcel 2: 5.0 +/- acres, Parcel 3: 15.0 +/- acres). The remainder would be approximately 60.0 +/- acres in size. The current use is vacant land. The proposed use is single-family residential lots. The project site is located in a rural area approximately two miles southwest of the community of Smartsville in eastern Yuba County. It is located on Parcel 2, Creek Way near Walsh Lane. The project is within the boundaries of the River Highlands Community Plan.	Neg	07/24/2006
2006051055	Central Los Angeles Learning Center No. 1 Toxic Substances Control, Department of Los Angeles, City of--Los Angeles The LAUSD proposes to construct a K-12 campus on the project site, which was described in detail in the 2004 FEIR. The 2004 FEIR disclosed the presence of subsurface gases at the project site, including methane and hydrogen sulfide, specifically with regard to the Corehole area. Since certification of the 2004 FEIR, LAUSD has installed a vent cone at the former Colehole and has conducted vapor monitoring. The monitoring has identified more extensive methane and hydrogen sulfide across the project site than was contemplated in the 2004 EIR. LAUSD submitted a draft Remedial Action Plan (RAP) to DTSC pursuant to chapter 6.8, division 20 of the California Health and Safety Code designed to remediate and monitor methane and hydrogen sulfide gases at the project site. If approved, the RAP would authorize LAUSD to construct and operate a methane and hydrogen sulfide mitigation system that will include a permeable sand dispersion layer; a passive venting system; a sub-slab membrane, passive venting system with air sweep, triggered heating ventilation and air condition and detection/alarm;	SIR	08/07/2006

	membrane and sand dispersion layer beneath the swimming pool with perimeter trench and gas collection piping tied to vent risers; and monitoring of methane and hydrogen sulfide with hand-held instruments as part of the operation and maintenance program. The design and implementation of the methane and hydrogen sulfide mitigation and monitoring system will require DTSC oversight, review, and approval.		
1983110706	JESS RANCH/APPLE VALLEY/ SAN BERNARDINO CO San Bernardino County APPLE VALLEY--SAN BERNARDINO SAA # 1600-2006-0035-R6 Improve the eastern bank of the Mojave River as required by the San Bernardino County Flood Control District. The flood improvements will require placement of buried launch-toe riprap beneath the scour line and grouted stone along the banks of the channel and the Mojave River streambed will be returned to pre-project contours following construction.	NOD	
1999031096	Santee Town Center Specific Plan Amendment (TCSP 04-01) Santee, City of Santee--San Diego SAA #1600-2006-0121-R5 Alter the stream to construct the River View at Santee-Mixed Use project, which includes high-density housing, a 2,000-seat multiplex theater, approximately 63,500 square feet of commercial office space, associated driveway access, and off-site road improvements. Project activities include grading and filling the streambed and riparian areas using conventional grading equipment.	NOD	
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus This is an application for a time extension to P-D(564). No changes to the project, which was approved by Council to develop a 24,925-square foot office complex with a 7,350-square foot restaurant on the corner of Briggsmore Avenue and Oakdale Road, and a 8,625-square foot financial/retail, are being proposed with this application.	NOD	
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus The project consists of a conditional use permit to allow the placement of a 75-foot-high monopole with stealth cellular antenna which will include a seven foot-high walled enclosure for the equipment shelter. The site is the north corner of the Salvation Army Red Shield Center on the west side of Las Vegas Street, south of the T.I.D. Lateral No. 1.	NOD	
2003091112	Long Beach Airport Terminal Area Improvement Project Long Beach, City of Long Beach--Los Angeles The proposed project would provide improvements to the existing terminal and related facilities at the Airport in order to accommodate recent increases in flight activity at the Airport as well as increases which may occur in the future consistent with operational limitations of the Airport Noise Compatibility Ordinance and the 1995 Settlement Agreement. The proposed project includes construction of, or alteration to the following thirteen areas: 1. Holdrooms; 2. Concession Area; 3. Passenger Security Screening; 4. Baggage Security Screening; 5. Baggage Claim Devices; 6. Baggage Service Office; 7. Restrooms; 8. Office Space; 9. Ticketing	NOD

2005102018	South San Joaquin Irrigation District Plan to Provide Retail Electric Service San Joaquin County Community Development Department Manteca, Escalon, Ripon--San Joaquin The South San Joaquin Irrigation District (SSJID) proposes to expand the services it offers to the public within its service territory to include retail electric service and to acquire existing electric distribution facilities currently owned and operated by Pacific Gas and Electric Company (PG&E) in order to do so.	NOD	
2006042025	Ten Mile River Bridge Seismic Retrofit/Replacement Caltrans #1 Fort Bragg--Mendocino The California Department of Transportation (Caltrans) in cooperation with Mendocino County proposes to replace the seismically deficient Ten Mile River Bridge on State Route 1. The new bridge would be constructed to the east of the existing bridge on a parallel alignment.	NOD	
2006042094	Wallan and Johnson Final Map Subdivision Humboldt County Community Development Services --Humboldt A Final Map Subdivision of 1,054 acres into Lots 1, 2, 3, 4 and Remainder of approximately 386, 362, 259, 9.8, and 37 acres, respectively. The project subdivides previously subdivided lands owned by Wallan and Johnson and triggers recordation of a Final Map. The subdivision will allow for termination of the Wallan-Johnson partnership of the subject lands. The subdivision results in Lots 1 and 2 as large-acreage agricultural resource parcels, Lot 4 as a resource parcel with an existing gravel mining operation, and Lot 3 as a residential parcels, Lot 4 as a resource parcel is predominantly designated "Green Gulch." No building site has been identified for this parcel and it is considered open space for the purposes of this project. The project requires an exception to Solar Access Standards, and an exception from the California Department of Forestry and Fire Protection to maximum length of dead-end roads.	NOD

	building (southern - 5-stories) would consist of 166 apartment units and would provide 291 parking stalls, primarily in a two-story concrete garage located directly below the building footprint. A new multi-use trail and pedestrian/bicycle bridge would be developed within the "Canal Greenway" in the ACFCWCD right-of-way for the flood control channel adjacent to the project site.		
2006061128	Country Lakes Estates Monterey County Planning & Building Inspection --Monterey The project consists of a Combined Development Permit that includes the following: - A General Plan Amendment from Rural Density Residential to Low Density Residential on approximately 15.3 acres of the subject property; - A Zone change from RDR/5.1 (Rural Density Residential, 5.1 acres per unit) to LDR/1 (Low Density Residential, 1 acre per unit) on the same 15.3 acres; - A standard subdivision vesting tentative map to divide two properties totaling 92 acres into 52 market-rate single family parcels ranging in size from 1.0 acre to 5.1 acres and 5 commercial parcels located adjacent to New Pleyto Road; - A use permit for a mutual water system; - A General Development Plan to establish commercial uses on the HC (Heavy Commercial) zoned properties. The General Development Plan would include interim use of Boat and Auto Sales as allowed under Monterey County Code (MCC) §21.20.060.MM prior to the development of permanent commercial uses.	MND	07/25/2006
2006061130	Boyd Deep Canyon Cell Tower; Pinyon Pines University of California, Riverside --Riverside Cingular Wireless proposes to construct an unmanned telecommunications facility under license on land owned by The Regents of the University of California and managed by the Riverside campus (UCR) as the Philip L. Boyd Deep Canyon Desert Research Center (CDCRC) (UCR project no. 958987-2). The license would allow Cingular to use a portion of the DCDRC to install and operate an antenna and receiving equipment cabinets for the receipt and transmission of wireless communication signals. The area for the proposed tower was selected by the DCDRC's Reserve Director to minimize potential impacts to undisturbed habitat, existing research projects, and teaching areas. The Pinyon Pines site is located along an existing dirt access road, approximately 0.4 mile northeast of Burlwood Drive and Stonecrest Road in the community of Pinyon Flats.	MND	07/25/2006
2006061131	Boyd Deep Canyon Cell Tower: Agave Hill University of California, Riverside Palm Desert--Riverside Cingular Wireless proposes to construct an unmanned telecommunications facility under license on land owned by The Regents of the University of California and managed by the Riverside campus (UCR) as the Philip L. Boyd Deep Canyon Desert Research Center (CDCRC) (UCR project no. 958987-2). The license would allow Cingular to use a portion of the DCDRC to install and operate an antenna and receiving equipment cabinets for the receipt and transmission of wireless communication signals. The area for the proposed tower was selected by the DCDRC's Reserve Director to minimize potential impacts to undisturbed habitat, existing research projects, and teaching areas. The site is located along an existing dirt road, east of SR-74, approximately 10 miles south of SR-111 and the City of Palm Desert.	MND	07/25/2006

<u>Documents Received on Monday, June 26, 2006</u>			
2006062126	<p>Salmon Creek Ranch Restoration Program Gold Ridge Resource Conservation District (GRRCD) --Sonoma Gold Ridge Resource Conservation District proposes erosion control and riparian restoration at seven ranches in the Salmon Creek watershed. The project has three main purposes:</p> <ul style="list-style-type: none"> - To improve aquatic habitat by reducing sedimentation to Salmon Creek and its tributaries; - To improve riparian habitat by repair of degraded or eroding banks and planting of diverse native riparian vegetation; - To enhance agricultural sustainability by preservation of agricultural land. 	MND	07/25/2006
2006062129	<p>Reduction of Wetland Setbacks for Timber Removal and Road Construction Humboldt County Community Development Services Blue Lake--Humboldt This project consists of road construction and timber removal within a wetland buffer setback. The road will serve a proposed, principally permitted, single family residence located outside of the wetland buffer setback.</p> <p>The total length of the proposed new road construction and road improvements is approximately 1,200 feet. The entire length of the road will be improved with gravel and rock surfacing to meet road category 2 standards with appropriate fire safe turn outs. Portions of the road are in neighboring parcels and an easement has already been secured.</p> <p>Construction of a new road to connect an existing haul road to Liscom Hill Road totals approximately 540 feet. Of that approximately 220 feet are within the wetland buffer setback. Proposed improvements to the existing haul road include approximately 204 feet within the wetland setback. As proposed, the road improvements will require a reduction of the wetland setback from 100 feet to between 60 and 24 feet.</p>	MND	07/25/2006
2006062131	<p>Daggett Road Off-Island Rehabilitation Project Stockton, Port of Stockton--San Joaquin The proposed project would widen Daggett Road pavement to approximately 25 feet to provide one lane of travel in each direction and to create 4-foot wide paved shoulders on either side of the roadway within existing ROW. Roadway and shoulder widening would extend from the centerline of the roadway and the proposed rehabilitation efforts would follow the alignment of the existing roadway, with minor shifts in the vertical and horizontal road alignment. North of the BNSF railway crossing the road would be slightly adjusted to align itself with the future reconstructed Daggett Road Bridge. South of the railway the road would follow its traditional alignment to tie in with the improved Daggett Road/SR-4 intersection. Daggett Road would also be resurfaced to repair the current deteriorated condition of the road and roadside drainage ditches would be graded and reconstructed as necessary. The paved roadway width would be consistent with City design guidelines for roadways experiencing less than 1,500 trips per day.</p>	MND	07/25/2006

2006061127	BNSF Third Main Track Project, Cajon Pass, Keenbrook to Summit San Bernardino County San Bernardino--San Bernardino The BNSF Railway Company proposes construction of a third main railroad track through a 15.9 mile section of the Cajon Subdivision, between Keenbrook (the southerly entrance to Cajon Pass) and Summit, in the County of San Bernardino.	NOP	07/25/2006
2006061129	Wilson / Orange Mixed Use Project Glendale Redevelopment Agency Glendale--Los Angeles The applicant is requesting the approval of a mixed-use project, which involves 201 condominium units (including five live/work units). The project also includes restaurant/retail floor area, recreational amenities to support the residential units, and supporting parking facilities. The overall goal of the proposed project is to design a distinctive landmark project on the site while providing a contemporary urban residential context that responds to the special character of downtown Glendale. The mixed-use project includes two, 12-story residential buildings that are proposed on top of four levels of parking above ground, three level of parking below ground, and retail, live/work artist studios for the project. Each building is 16 stories in height. The two buildings would be connected with a pedestrian access bridge at the roof terrace level. In total, the proposed buildings would reach a height of 172 feet to the roof terrace and up to a height of 198 to the roof of the mechanical penthouse.	NOP	07/25/2006
2006062141	2005 Reclamation Plan for Western Aggregates, LLC. Yuba County Operations Mining and Geology Board, Department of Conservation Marysville--Yuba The Western Aggregates LLC Reclamation Plan has several elements that would be implimented over the lifetime of the mining operations. These elements will be the focus of the EIR's impact evaluation. While the EIR, in keeping with the requirements of CEQA, will not directly address the impact of approved mining activities, but will evaluate implementation of the reclamation plan. Onsite by mining operations conditions will serve as environmental baseline conditions from which reclamation plan impacts will be measured. Mining operations as described in the project applicant's reclamation plan application will remove san and gravel deposits (aggregates).	NOP	07/25/2006
2006061126	ENV-2005-8857-MND Los Angeles City Planning Department Brentwood, Glendale--Los Angeles Coastal Development Permit to allow the conversion of a 16,816 square-foot office complex to school/playground use as part of an additional campus of an existing private school (Pre-K through 8th) for 246 students with 55 parking spaces and a Design Review Board Approval and a Specific Plan Project Permit for alterations to the existing building including a new roof, exterior finishes, signs, shade canopy, and other equipment within the Pacific Palisades Commercial Village and Neighborhoods Specific Plan on a 64,574 square-foot site, in the C2-1XL Zone. 2004042038	Graeagle Subdivision No. 9 - TSM 9-03/04-04 Plumas County Planning Department --Plumas Extension of Time to record the Tentative Subdivision Map to divide 399.29 acres into 99 parcels.	NOD	
2004112097	Lake of the Pines Wastewater Treatment Plant Upgrade Project Nevada County Department of Sanitation --Nevada The proposed project includes upgrading effluent treatment to a year-round tertiary level. Instead of effluent being discharged to Magnolia Creek during the winter and use as spray irrigation during the summer, the tertiary-treated effluent would always be discharged to Magnolia Creek. Additionally, WWTP capacity would be increased from a capacity of 0.46 mgd average dry weather flow (ADWF) to the current permitted capacity of 0.72 mgd ADWF.	NOD	
2005072095	Sand Hill Road Hotel and Office Development Project Menlo Park, City of Menlo Park--San Mateo The proposed project is the construction of a 170,000 square-foot hotel facility comprised of 120 guest rooms and suites, five villas, a restaurant, spa, fitness center, and a 100,000 square-foot office complex on a 21.06-acre, undeveloped site at 2825 Sand Hill Road adjacent to the Sand Hill Road / I-280 interchange.	NOD	
2005082133	Lake Wildwood Wastewater Treatment Plant Improvements 2006 Nevada County --Nevada The proposed project includes minor improvements to the WWTP. These improvements include headworks modifications, a headworks chemical building, a new equalization basin, a new filter cell and related equipment, chemical coagulant storage tank and feed facilities, a new tailworks building, modifications to the emergency storage basin, a new administrative building, a new maintenance building and storage area and minor road paving.	NOD	
2005101002	East Niles Community Service District Annexation No. 39 Revised East Niles Community Services District Bakersfield--Kern The project is an annexation of approximately 167 acres to the East Niles Community Services District. Upon Annexation approval the District will be able to provide water and sewer services to these areas.	NOD	
2006031005	Tuscany West (Tentative Tract No. 25473, Revision No. 1) Lake Elsinore, City of Lake Elsinore--Riverside Tentative Tract Map No. 25473 Revision No. 1 proposes the subdivision of approximately 58.7 acres into 164 single-family residential lots, eight open space lots, water reservoir, and three water quality basins.	NOD	
2006031111	Center Court Plaza Agoura Hills, City of Agoura Hills--Los Angeles Construction of a two-story medical office building of about 48,000 sf, along with about 6,100 sf of basement parking garage (56 spaces), and surface parking for 227 vehicles, on a 3.2-acre lot.	NOD

2006041111	Crazy Horse Square Santa Ana, City of Santa Ana--Orange The proposed project would require a zoning ordinance amendment (ZOA) to amend the provisions of Specific Development No. 8 to create a third project area (Area III) that would allow the development of 20,154 square feet of retail and food uses on the project site. Three separate parcels will be consolidated into one and three new buildings will be constructed on the site. Access to the project is from Brookhollow Drive via Grand or Warner Avenue.	NOD	
2006041139	SIO Seawater/Storm Water Management Project University of California, San Diego La Jolla--San Diego The proposed project is located at the University of California, San Diego (UCSD) Scripps Institution of Oceanography (SIO), which is located west of North Torrey Pines Road and the main UCSD campus in the La Jolla community of the City of San Diego. The proposed project includes modifications to the following SIO building systems and campus utility connections: Hubbs Hall, the Experimental Aquarium, the Hydraulics Lab, Birch Aquarium, Southwest Fisheries Building, and five seawater storage/supply tanks which distribute seawater throughout the SIO area. The project would separate seawater and storm water that is currently commingled and would provide a system to monitor and evaluate the quality and quantity of seawater discharge from UCSD SIO. The project would enable compliance with the requirements of NPDES Order No. CA0107239 (which prohibits UCSD SIO from discharging non-storm water into a storm drain), and Order No. R9-2005-008 (which sets seawater pollutant discharge criteria).	NOD	
2006042073	Woodbridge Estates II (aka. Old Auburn Road Subdivision) (PSUB T20050361) Placer County Planning Department Roseville--Placer Tentative Subdivision Map to create 7 separate 40,000 sq. ft. minimum Single-Family lots served by a private road with a gated entry/exit.	NOD	
2006042103	General Plan Amendment and Zoning Amendment (2004-193) Calaveras County Planning Department --Calaveras The applicant is requesting a General Plan Amendment to change the General Plan land use designation from Burson Residential Center to Burson Community Center for APN 048-011-015. Approval of the proposed General Plan Amendment would also result in the inclusion of portions of APNs 048-011-013, 024, 025, 026, and 027 within the Burson Community Center boundaries. APN 048-011-014 would be excluded from the Community Center boundaries at the owner's request. Concurrently requested is a Zoning Amendment from A1 (General Agriculture) to C2 (General Commercial) for APN 048-011-015 only.	NOD

	include solid waste collection, streetlighting, park and recreation and graffiti abatement.		
2006051099	The Village at Maymont (ER 62-05) San Luis Obispo, City of San Luis Obispo--San Luis Obispo A new mixed commercial and residential project with 91 residential units and approximately 25,000 sq. ft. of commercial lease space in multiple buildings, including a shared and mixed use parking reduction of 30% and street abandonment of a portion of South Street that lies within the project area.	NOD	
2006052151	NCRSP Parcel 35 - Galleria Mall Expansion Roseville, City of Roseville--Placer The applicant requests modification of the existing Major Project Permit (Stage 1) and Stage 2 approval of the Major Project Permit (architecture and landscaping) to allow a phased 487,806 (gross) square foot (335,231 leasable) expansion of the existing 1,309,237 square foot (gross) Galleria Mall. Project components include: 1) Expansion of three major tenants (Sears, Macy's, and J.C. Penney) by 40,000 square feet each. 2) Expansion of in-line retail space by 293,617 square feet, including reconfiguration of the outdoor promenade. 3) Two parking structures including one five-level structure, and one "grade plus one" parking deck. The parking decks include a combined addition of 1,760 parking spaces for a total of 6,692. 4) Reconfigured surface parking throughout the site, including 155 additional temporary surface parking spaces near the corner of Galleria Boulevard and Roseville Parkway. 5) Various modifications to the on- and off-site vehicular and pedestrian circulation system to increase efficiency of on-site circulation, including: - Modification and realignment of internal roadways/drive aisles, including internal road widening, - Modifications to existing access driveways from Galleria Boulevard and Roseville Parkway to streamline ingress and egress, including reconfigured or additional egress turn lanes, auxiliary lanes, and additional dual-left turn ingress lanes into the Mall site, - Expansion of the bus transfer station to accommodate an expected increase in public transportation demand as a result of the expansion. 6) Enhancements to the southwest quadrant of the State Route 65 / Galleria Boulevard freeway interchange, including signal optimization, lane reconfiguration, and additional lane storage. 7) Amendment of the existing lease agreement between the City of Roseville and Westfield Shoppingtown LLC. The amended lease agreement will continue the public/private partnership between the City and Westfield and will facilitate the proposed expansion by outlining development obligations, including the public infrastructure necessary to serve the redeveloped property.	NOD	
2006069013	Major Site Development Permit 05-29 / Idarius Ukiah, City of Ukiah--Mendocino The project involves the installation of a 12" drainage culvert on Orr Creek, tributary to the Russian River, Mendocino County. Site is located at 125 Ford Street, Ukiah, California (Ukiah 7.5 minute U.S. Geological Survey quadrangle).	NOD

2004102080	City of Galt Land Lease and Wastewater Treatment Plant Reclamation Project Galt, City of Galt--Sacramento To lease and possibly annex up to 171 acres adjacent to the City of Galt's existing wastewater treatment plant (WWTP) and to make improvements to the property for the purpose of using it to grow crops that will be irrigated with secondary treated effluent. This project will increase the total land disposal area for Galt WWTP effluent to accomodate the plant's present treatment capacity of 3 million gallon per day consistent with current Galt General Plan buildout projections. A conditional use permit will be required from Sacramento County to commerce irrigation.	EIR	08/11/2006
2005011049	Santa Barbara Ranch Santa Barbara County --Santa Barbara General Plan amendments, Local Coastal Program amendments, related permits, for 54 single family units on 485 acres (or 72 units on 3,254 acres under Alternative 1); Coastal Development Permits, Major and Minor Use Permits for equestrian center, agricultural support facilities, public recreation facilities (parking, picnic, trails, beach access), utility infrastructure; Agricultural Conservation Easement (Williamson Act in Alt. 1) and Open Space Conservation Easements.	EIR	08/28/2006
2005081063	ESPN Radio Towers Unclassified Conditional Use Permit Application No. 3111 Fresno County Clovis--Fresno The applicant proposes to construct three 401-foot high steel lattice towers supported by guy wires anchored to three footings, an 8-foot by 12-foot by 8-foot high prefabricated equipment building to serve all three towers, and a six-foot high chain link security fence enclosing each of the towers. Each tower will have an underground copper coil arrangement of 180-foot long wire radials in a 360-degree array that will be buried 18 inches underground. This would result in a total ground disturbance area of approximately nine acres. The towers will be unmanned and will be remotely controlled from a studio in Fresno. No other on-site facilities are proposed. The placement of project improvements conforms to the setback requirements for the AE-20 Zone District.	FIN

	clear span wood bridge and installation of a rock step in low flow channel. Non-native vegetation and planting of native riparian vegetation will take place as part of the project. (2) Remove an existing vehicular bridge and 48" CMP pipe, create a meandering low flow channel, floodplain, grading back the creek bank, construction of bridge abutments with wing walls, installation of rip-rap under bridge, and installation rock steps in low flow channel. Lastly, installation of a 26' wide by 36' long clear span vehicle bridge and non-native vegetation and planting of native riparian vegetation will take place as part of the project as well. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0324-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Roger Ono, Dominican University of California.		
1998102084	Specific Plan Amendment No. 3 to the Bridle Ridge Specific Plan (SP 98-01) Oakdale, City of Oakdale--Stanislaus Proposal to subdivide five acres into 22 residential lots and one lots (Lot A) designated for open space located at 7318 Crane Road, Oakdale. The proposed residential lots range in size from 6,050 +/- to 7,157 +/- square feet with Lot A being 9,612 square feet. A portion of APN 063-025-009 shall be obtained by the developer and included in the proposed lots 1, 7, 8, 14 square footages and right-of-way. The remaining portion of APN 063-025-009 will be accessible via a private access lot. The project site is designated by the Oakdale General Plan as Single-Family Low-Density Residential (SFLDR; 2-6 du/ac) and is zoned Bridle Ridge Specific Plan 02 (SP-02).	NOD	
1998102084	Specific Plan Amendment No. 3 to the Bridle Ridge Specific Plan (SP 98-01) Oakdale, City of Oakdale--Stanislaus Approval of a General Plan Amendment to incorporate the Specific Plan Amendments to the Bridle Ridge Specific Plan 02 and approval of Vesting Tentative Subdivision Map for the purposes of dividing 5.67 +/- acres (APN 063-026-003) and 8953.44 square feet (APN 063-026-002) of land into 39 lots for single-family residences within a portion of the Bridle Ridge Specific Plan (BRSP) area. The project site is situated south of Greger Street, east of Crane Road and northwest of the Crane Lateral. Considerations of the General Plan Amendments include amending the land use plan from Single Family Low Density Residential (SFLDR) to Low Density Residential (LDR) for APN 063-026-002 and 003 included in Vesting Tentative Subdivision Map 2005-04 and to incorporate the Bridle Ridge Specific Plan amendments as requested. Considerations of the Amendments to the Bridle Ridge Specific Plan 02 include amending Table 5.2, Bridle Ridge Development Code, to include Zoning District SPR-3; amending Figure 5.1, Land Use Summary, and Figure 5.2; Specific Plan Zoning Districts Map, to include LDR and SPR-3 for Lots 1-31 of VTSM 2005-04; amending Figure 6.5, Section 7.9 and Figure 7.10 to eliminate the requirements of sound walls along Crane Road and amending mitigation measures to eliminate the required sound wall on Crane Road and replacing with a mitigation measure requiring an environmental noise assessment study to be performed for residential development adjacent to Crane Road. The Vesting Tentative Subdivision Map includes Lots 1 through 31 that range in size from 3,006 square feet to 5,406 square feet and would be accessible via motor courts and lots 32 through 39 that are generally consistent with the residential densities and zoning as identified in the SPR-1 (6,000 sq. ft. lot minimum) zone district in the Specific Plan. 2005082064	<p>West A Street Realignment-Hesperian Blvd to Golf Course Rd Hayward, City of Hayward--Alameda</p> <p>As part of West A Street Realignment in Hayward, a tributary to Sulphur Creek will be placed in a culvert. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0636-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Morad Fakhrai / City of Hayward.</p>	NOD	
2005112094	<p>Kuelto / Noble Vineyard Conversion Napa County St. Helena--Napa</p> <p>The project includes earthmoving activity associated with development of a new vineyard, including installation of erosion control measures as detailed in Erosion Control Plan # 00399-ECPA, available for review at the Napa County Conservation, Development and Planning Department. Slopes range from 1% to 31%, with an average slope of 21%. Grading would consist of land smoothing, ripping and disking. There would be no off-site spoils. Water would be available from existing wells. Erosion control plan #00399-ECPA has been prepared and includes silt fencing, straw mulch, straw wattles, diversion ditches, drop inlets, straw bale dikes, earthen waterbars, rock slope protection and permanent no-till cover crop. Total area proposed for vineyard project is 5.06 +/- acres on a 212.96-acre holding located on the north side of Sage Canyon Road approximately two miles east of its intersection with Chiles Pope Valley Road. The parcel is located in an Agricultural Watershed (AW) zoning district, with a Napa County General Plan designation of Agricultural Resource. Access would be from an existing road off of Sage Canyon Road. No future projects are anticipated for the parcel at this time.</p>	NOD	
2006021150	<p>Artesia Corridor Specific Plan Project Gardena, City of Gardena--Los Angeles</p> <p>The project site is 44.1 acres in size and currently contains 275,885 square feet of primarily commercial and industrial uses on the site, and three single-family residences. The project site is currently zoned for General Commercial (C-3) and General Industrial (M-2) uses. The City's General Plan designates the project site for commercial uses.</p> <p>The proposed Specific Plan would allow for the development of 375,000 square feet of general commercial uses, 40,000 square feet of restaurant uses and 300 residential units, including approximately 70 live-work units with 500 square feet of office space each. The Land Use Plan is designated to accommodate these uses through the creation of three land use designations, Mixed Use, General Commercial, and Public in six Planning Areas.</p> <p>The adoption of a specific plan is authorized by Section 65450 of the California Government Code as a method "for the systematic implementation of the general plan for all or part of the area covered by the general plan." Policy LU 3.3 of the Gardena General Plan 2006 states that the City of Gardena should "Consider the adoption of specific plans for ... the Artesia corridor to promote and direct revitalization efforts, and to further study and evaluate whether a mix of commercial and residential development is appropriate in these areas." As part of the implementation of the Gardena General Plan 2006, the City has prepared the</p>	NOD

2006022059	Burbank School and Cannery Park Hayward Unified School District Hayward--Alameda As part of the deconstruction of an old school and construction of a new school, the District proposes to culvert 419 linear feet of Sulphur Creek near C Street and Filbert Street in the City of Hayward. Offsite mitigation will be performed on a lower reach of Sulphur Creek. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0774-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Morad Fakhrai / City of Hayward Department of Public Works.	NOD	
2006041087	Perris Valley Channel Improvements Eastern Municipal Water District Moreno Valley--Riverside Eastern Municipal Water District owns and operates a 30-inch diameter high density polyethylene (HDPE) sewer line that was installed in the north levee of the Perris Valley Storm Drain between Heacock Street and Perris Boulevard. The levee also serves as an access road to the Perris Valley Channel that is owned and operated by the Riverside County Flood Control and Water Conservation District. The levee in the area westerly of Indian Street to Perris Boulevard (~ 3,000 lineal feet) has deteriorated by erosion to the point that the HDPE sewer line has become exposed in several places. To ensure integrity of the HDPE sewer line, EMWD proposes to construct improvements to the levee. Several options are being considered. These include: (1) restoring the eroded areas and stabilizing the embankment; (2) restoring the eroded areas, stabilizing the embankment, and paving the access road; and (3) restoring the eroded areas, stabilizing the embankment, paving the access road, installing a concrete berm along the access road, and installing down drains to convey runoff to a controlled discharge area. Upon completion, the proposed project will ensure the integrity of the sewer pipeline and provide efficient, reliable service to existing customers.	NOD

2006068281	DWR 2006 Critical Levee Emergency Repair Project Sacramento River 85.6R and the Bear River 2.4L and 10.1R SAA#1600-2006-0203-R2 Fish & Game #3 --Sacramento, Sutter, Yuba Group 2 of the California Department of Water Resources 2006 Critical Levee Emergency Repair Project. Group 2 consists of levee repair projects at Sacramento River at river miles 85.6 right bank and Bear River at river miles 2.4 left bank and 10.1 right bank. To repair the damage at each site and mitigate the potential for levee failure DWR would install rockfill and earthfill soil at each site to fill the scoured or lost areas, and re-establish the supporting slope and bench that were previously present. On appropriate sites, DWR will incorporate "woody debris," willow plantings and shrub vegetation to promote bank stabilization and increase instream habitat value, riparian habitat and shaded stream habitat. The designs for repair identify existing special status species habitat (such as elderberry shrubs), and designate buffers or restoration measures to assure their persistence after levee repair.	NOE	
2006068282	Sewer Agency of Southern Marin Force Main Pipeline Project Fish & Game #3 Mill Valley--Marin The Sewer Agency of Southern Marin (SASM) proposes to construct a sewage force main pipeline from the SASM treatment plant on Sycamore Drive in Mill Valley to the SASM Rosemont Pump Station on Altamont Boulevard in order to replace the existing antiquated pipeline, as well as accommodate for wet weather overflows. The proposed project involves construction of a new 14" high density conveyance pipeline between the treatment plant and pump station mentioned previously. Installation of the conveyance pipeline will involve open cut trench and pipe-bursting methods, as well as utilization of a horizontal directional drill (HDD) at the Arroyo Corte Madera del Presidio Creek crossing (Station 19+60 to 24+20) as well as other sensitive locations including Station 07+15 to 10+80. The Department of Fish and Game is issuing a Streambed Alteration Agreement Number 1600-2005-0769-3 pursuant to Fish and Game Code Section 1602.	NOE

	Components of both projects would include the vacation and realignment of alleys on Parcel B. Parcel B of the project includes an approximately 99,500 square foot residential development containing 40 luxury residential condominium units. Parcel A of the project includes an approximately 87,600 square foot mixed-use project containing 20 luxury residential condominium units and approximately 12,000 square feet of commercial/retail space, Parcels A and B combined includes 12,000 square feet of retail-commercial floor area, and 154,170 square feet of residential floor area contained in 60 dwelling units.		
2005121066	Shoreline Gateway Long Beach Redevelopment Agency Long Beach--Los Angeles The project proposes a mixed-use residential development involving three towers with 358 residential units including live/work spaces, townhomes, one to three bedroom apartments units, penthouse units and associated amenities and 13,561 square feet of retail/gallery space. Parking for approximately 820 vehicles would be provided in three subterranean parking levels and in a concealed parking structure located at-grade and one level above-grade.	EIR	08/14/2006
2005122079	Oleander, Sundance, and Sundance 2 Development Projects Manteca, City of Manteca--San Joaquin The project is a proposal to annex and develop a 230-acre site, located in the southern portion of the City of Manteca's sphere of influence, south of State Route 120, with single-family residential, community parks, a new Boys and Girls Club facility, approximately 2.29 acres of commercial land use, and related amenities (e.g., utilities, services, roadways).	EIR	08/14/2006
2006011135	Villa Burano Area Plan Los Banos, City of Los Banos--Merced The proposed project includes annexation of the remaining two parcels, totaling approximately 114.5 acres. The existing city limits border the project site to the north, south, and west. The proposed project also includes the general plan land use designation for two acres of the project site from Low Density Residential to Neighborhood Commercial and pre-zoning the entire residential portion of the site currently within unincorporated county to Planned Development (PD) and the commercial portion to Neighborhood Commercial (C-N). The proposed project also includes a zone change for the parcel currently within the city limits from Public Facilities (PF) to Planned Development (PD). Proposed land uses include 634 single-family residential units, two acres of neighborhood commercial, and 10.7 acres of parks.	EIR	08/14/2006
2003111123	Clearman's Village Project, Project No. 03-147 Los Angeles County Department of Regional Planning Pasadena, Temple City, San Marino--Los Angeles An application to develop a new two-story department store of 98,497 square feet and two single-story restaurants of 15,000 and 8,500 square feet respectively. Project will provide 658 parking spaces. The project is requesting a Zone Change to rezone the entire site to C-2-DP and a Conditional Use Permit for development within DP zone. Currently, site is paved and developed with shops, offices, restaurants, and five single family residences owned by the project applicant. One existing restaurant of 15,000 sq. ft. will remain, while the rest of current uses will	FIN

	be demolished to make way for the development.		
2005031010	Lake Perris Pollution Prevention and Source Protection Program Metropolitan Water District of Southern California Perris, Moreno Valley--Riverside The objectives of the proposed project are to (1) ensure reliable access to The Metropolitan Water District of Southern California's (Metropolitan) existing 65,000 acre-feet of flexible storage of water in Lake Perris; (2) enhance dissolved oxygen levels in Lake Perris, thereby reducing taste-and-odor causing compounds; (3) reduce risk of waterborne pathogens by preventative measures within the Lake Perris watershed; and (4) maintain recreational opportunities. To meet the project objectives, Metropolitan proposes two project components for implementation: (1) the dissolved oxygen enhancement component and (2) the pathogen risk reduction component.	FIN	
2006061169	Airport Business Center (ER 194-05) San Luis Obispo, City of San Luis Obispo--San Luis Obispo The project consists of developing the vacant site with a total of seven new buildings that will ultimately accommodate a variety of office, retail, and services uses as allowed within the Service Commercial zoning district. The total floor area of all the buildings combined will be 70,500 square feet. No construction or grading is proposed to encroach within the creek area. Parking is proposed to be accommodated with outdoor asphalt parking areas combined with pedestrian paths and landscape areas. The applicants have been granted a Use Permit to allow a 10% reduction in the required number of parking spaces. The plans propose a mixture of one and two story buildings that are characterized by ribbed metal roofing, large overhangs, ribbed metal siding and metal awnings. The color choice is two-tone grey with a blue accent trim. Window frames are proposed to be a satin finish clear aluminum. The design of the project is influenced by other buildings within the airport area.	MND	07/31/2006
2006061170	Our Lady Queen of Angels Church Expansion Newport Beach, City of Newport Beach--Orange OLQA proposes to expand their existing church and school facilities by relocating its church to the adjacent property located at 2100 Mar Vista Drive and expanding its school within its existing boundaries at 2046 Mar Vista Drive. The expansion includes the construction of a 1,170-seat sanctuary, additional classrooms, and a 9,922 square foot gymnasium. When combined, the new Our Lady Queen of Angels Church campus will be approximately 12.17 acres in size. The project as proposed would require approval of a Use Permit to allow the expansion of the existing church and school facilities; to allow the proposed church building to exceed the permitted building height of 35 feet (90 feet proposed for the steeple); to allow the transfer of development intensity from the new church site (2100 Mar Vista Drive) to the school site (2046 Mar Vista Drive) so as the square footage for the two properties when combined would result in an overall FAR (floor area ratio) of 0.17; and to allow ten portable classrooms to be located on the school site during the construction period. 2006068309	DWR 2006 Critical Levee Emergency Repair Project Fish & Game #2 --Solano, Sacramento Group 3 of the California Department of Water Resources 2006 Critical Levee Emergency Repair Projects. Group 3 consists of levee repair projects at Sacramento River at river miles 20.8L, 265.L and 32.5R, Cache Slough at river miles 16.5L and 21.8R and Steamboat Slough at river mile 16.2R. To repair the damage at each site to fill the scoured or lost areas, and re-establish the supporting slope and bench taht were previously present.	NOE	
2006068310	DWR 2006 Critical Levee Emergency Repair Project Fish & Game #2 --Colusa Group 5 of the California Department of Water Resources 2006 Critical Levee Emergency Repair Projects. Group 5 consists of levee repair projects at Sacramento river at river miles 130.8R, 141.4R, 145.9L, 154.5R, and 164.0R. To repair the damage at each site and mitigate the potential for levee failure DWR would install rockfill and earthfill soil at each site to fill the scoured or lost areas, and re-establish the debris', willow plantings and shrub vegetation to promote bank stabilization and increase instream habitat value, riparian habitat and shaded stream habitat. SAA #1600-2006-0200-R2.	NOE	
2006068323	Grizzly Bear House Historic Road and Meadow Rehabilitation Parks and Recreation, Department of --Placer The Old Foresthill Road (Old Highway 24) to historic Grizzly Bear House was damaged by a heavy 2-wheel drive SBC utility vehicle when the ground was saturated on March 3, 2005, which resulted in tire ruts 3-6 inches deep. The ruts will be repaired by a CCC crew or park staff using hand tools (rakes, shovels, wheel barrels, etc.) to knock down edges and move dirt. The area will be seeded with a native seed mix. All work will be done when the ground is moist or dry, but not saturated. Seeds will be raked into and covered by existing dirt. Straw or natural jute matting (without any plastic or nylon netting) may be used to cover exposed dirt and seed. The proposed project area is 100 feet long and 50 feet wide. The historic road was at one time completely paved; it was returned to a dirt road and seeded with grass when the new Foresthill Road was constructed. The grass covered road and site have been permanently closed to motor vehicles, horses, and bikes. Two "Area Closed For Restoration" signs (~ 12 x 24 inches) will be installed using standard metal sign posts. Utility companies have no need to use the road to access their lines. The existing wire gate off Foresthill Road will be replaced with unbroken fencing. A State Park Archaeologist and Environmental Scientist will monitor the work.	NOE	
2006068324	Placerville Station Phase II - Park & Bus Placerville, City of Placerville--El Dorado	NOE
